Deposit Tube K411	0	0
Hand Terminal K186	0	0
Wire Stripper	0	0
Press Optimization	0	0

# Error Codes 30 & 32

---

- › These options can be turned on if the customer should decide to install them on their Komax 40SPC machines. If these options are not installed on a Komax 40SPC, all systems should be turned off. You will get an error 30 or 32 if the systems are not shut off.
- › To turn the system on or off, please do the following. Go to the main screen and press the control key and (S) key simultaneously. At this time the options screen will come up. Enter 0 to turn it off, enter 1 to turn it on.
