

KOMAX 40 Series Grippers

Below is a brief listing of grippers. Although not all of these grippers are common, most have been useful in specific applications. Before ordering any non-standard grippers, please confirm their use towards your application with a technician.

Grippers

- **40, 42, 43*** **Standard** **001314**
Black oxide coated steel. All applications.
- **40, 42*, 43*** **Special** **010245**
Black oxide coated steel. Ridged steel insert in center. For tough insulation. Will leave marks on insulation.

KOMAX 40 Series Grippers

- **40, 42*, 43*** **Special** **010246**
Black oxide coated steel. Same as 010245, except without insert. Does have gap for inserts.
- **40, 42*, 43*** **Steel (Short)** **003350**
Hardened steel gripper standard size (20mm). Hardened steel with 0.6mm groove in each finger (will not wear as quickly & provides more grip on insulation).
- **40, 42*** **Steel (Long)** **002283**
Hardened steel gripper long (32mm). Same as 003350 but longer.
- **40, 42*, 43*** **Knife** **005618**
Knife edge standard size (hardened steel). Gripper has 45° degree angle cut into each finger. Provides best grip on tough teflon insulation. Leaves mark on insulation.

KOMAX 40 Series Grippers

- **40, 42*, 43*** **Aluminum** **010718**
Aluminum gripper - three wide fingers, less contact points; able to apply more pressure on insulation.

› **Transfer Grippers**

- **42, 43** **Special Transfer** **012464**
Special transfer gripper. Same as 005618, except for transfer station only.
- **42** **Transfer (Long)** **010248**
Long aluminum transfer gripper only for extra grip (any application).
- **42** **Transfer w/rubber** **005469**
Transfer Gripper only with rubber insert. Insert 4.4mm wide; will not slip. You can apply more pressure (Teflon, glaze insulation).

KOMAX 40 Series Grippers

- **42** **Transfer w/rubber** **005470**
Transfer Gripper only with rubber insert. Same as 005469 except 2.4mm wide.
- **42** **Transfer (Metal)** **012779**
Transfer gripper with metal insert. For transport. Has rough edges on insert; non-slip. Will leave marks on insulation.
- **42** **Transfer** **012780**
Gripper for transport. Standard size; same as 012779 without insert.

› Inserts

- **42** **Rubber Insert** **005471**
Rubber insert 5mm - for part 005469.

KOMAX 40 Series Grippers

- **42** **Rubber Insert** **005472**
Rubber insert 5mm - for part 005470.

› Vertical Transfer Grippers

- **43** **Plastic - Right** **012210**
Right vertical plastic gripper - right side only. Gripper will deliver wire to press and insert vertically. Use with left vertical gripper 012211. Transfer only.
- **43** **Steel - Right** **012210/S**
Right vertical steel gripper - standard application; leaves marks on insulation. Same as 012210 but steel.
- **43** **Plastic - Left** **012211**
Left vertical plastic gripper - same as right gripper, except left side application. Use with right vertical plastic gripper 012210.
